

WHAT?

- ✓ ACDelco and Repair Shops around the country are teaming up for ACDelco's National Day of Service to repair the vehicles of those who need it the most.
- ✓ We want to prevent breakdowns and driving in dangerous conditions because families cannot afford to have their vehicles repaired.

WHY?

- ✓ AAA estimates that one in three drivers cannot pay out-of-pocket for an unexpected vehicle repair bill.
- ✓ Studies show that people without a safe and reliable car may miss work, doctor appointments and other important events in their lives. People who use transit systems are twice as likely to arrive late and miss appointments when compared to those who drive.
- ✓ Putting off maintenance can lead to expensive repairs down the road. The bill for accidents from lack of regular vehicle maintenance tops \$2 billion/year nationwide.
- ✓ Deferring maintenance or repairs, especially to the brake or steering and suspension systems, can make a vehicle less safe. Braking distance climbs to 333 feet on wet pavement, worn brakes make that distance higher.

WHEN & WHERE?

*On **May 11th** Seasonall Automotive Center has partnered with the Veteran's Outreach to perform vehicle repairs for families in need. We will also provide **FREE** wiper blades for the **FIRST 100** of our **Existing Customers** who visit our shop on **May 11th**!*
